6.5.1 Internal Quality Assurance Cell (IQAC) has contributed significantly for institutionalizing the quality assurance strategies and processes. It reviews teaching learning process, structures & methodologies of operations and learning outcomes at periodic intervals and records the incremental improvement in various activities

Internal Quality Assurance Cell (IQAC) has contributed significantly for institutionalizing the quality assurance strategies and processes. It reviews teaching learning process, structures & methodologies of operations and learning outcomes at periodic intervals and records the incremental improvement in various activities.

Quality assurance strategies and processes:

- Preparation of the college timetable at the beginning of the academic year.
- Preparation of a calendar of events at the beginning of the academic year, which includes the dates of commencement of classes, tentative dates of internal assessments and other activities.
- IQAC is in charge of planning all departments' special talks.
- IQAC is in charge of planning celebrations of national holidays and commemorative days.
- IQAC gathers feedback on the curriculum and the institutional infrastructure from students, teachers, alumni, and employers in order to evaluate the teaching learning process, structures, and methodology of operations. After reviewing the feedback, any appropriate action will be made.
- IQAC recommends that each department analyse all class results in order to track learning outcomes and take any required actions to enhance performance.
- With the NSS, NCC, and Youth Red Cross Wings, IQAC launches outreach and extension initiatives such as blood donation drives, health checkups, and sociocultural awareness campaigns through special camps in the adopted villages.

The institutional website has been updated with information on each IQAC initiative.
