### **VISION**

The library at A D B College is actively involved in learning and discovery as a vital member of the academic community. To satisfy the requirements of students and faculty now and in the future, we create, arrange, make accessible, and conserve materials. We investigate and put into practise cutting-edge technologies and services to provide users with easy access to scholarly materials as well as syllabus-based information at anytime and anywhere. We also give students access to a comfortable and useful physical area where they can engage in independent research and study outside of the classroom.
